FEEDBACK AND MARKING POLICY

At Mottram Church of England Primary School, we recognise the importance of feedback as part of the teaching and learning cycle, and aim to maximise the effectiveness of its use in practise. We are mindful also of the workload implications of written marking, and of the research surrounding effective feedback.

Our policy is underpinned by the evidence of best practise from the Education Endowment Foundation research shows that effective feedback should:

- redirect or focus either the teacher's or the learner's actions to achieve a goal
- be specific, accurate and clear
- encourage and support further effort
- be given sparingly so that it is meaningful
- provide specific guidance on how to improve and not just tell students when they are wrong

Notably, the Department for Education research into teacher workload has highlighted written marking as a key contributing factor to workload. As such, the teaching staff at Mottram Church of England Primary School has investigated alternatives to onerous written marking which can provide effective feedback in line with the EEF's recommendations, and those of the DfE's expert group which emphasises that marking should be: **meaningful, manageable,** and **motivating**. We have also taken advice provided by the NCETM (National Centre for Excellence in Teaching Mathematics) that the most important activity for teachers is the teaching itself, supported by the design and preparation of lessons.

Key Principles

Our policy on feedback has at its core a number of principles:

- the sole focus of feedback and marking should be to further children's learning;
- evidence of feedback and marking is incidental to the process; we do not provide additional evidence for external verification;
- written comments should only be used where they are accessible to students according to age and ability;
- feedback delivered closest to the point of action is most effective, and as such feedback delivered in lessons is more effective than comments provided at a later date;
- feedback is provided both to teachers and pupils as part of assessment processes in the classroom, and takes many forms other than written comments;

- feedback is part of the school's wider assessment processes which aim to provide an appropriate level of challenge to pupils in lessons, allowing them to make good progress;
- all pupils' work should be reviewed by teachers at the earliest appropriate opportunity so that it might impact on future learning. When work is reviewed, it should be acknowledged in books.

Within these principles, our aim is to make use of the good practise approaches outlined by the EEF toolkit to ensure that children are provided with timely and purposeful feedback that furthers their learning, and that teachers are able to gather feedback and assessments that enable them to adjust their teaching both within and across a sequence of lessons.

Feedback and Marking in practise

It is vital that teachers evaluate the work that children undertake in lessons, and use information obtained from this to allow them to adjust their teaching. Feedback occurs at one of the common stages in the learning process:

- 1. Immediate feedback at the point of teaching
- 2. Summary feedback at the end of the lesson/task
- 3. Review feedback away from the point of teaching (including written comments)

The stages are deliberately numbered in the order of priority, noting that feedback closest to the point of teaching and learning is most likely to be the most effective in driving further improvement and learning, especially for younger pupils. As a school, we place considerable emphasis on the provision of immediate feedback. Where feedback is based on the review of work completed, the focus will be often on providing feedback for the teacher to further adapt teaching.

This is what feedback may look like at Mottram Church of England primary School:

Туре	What it looks like	Evidence (for observers)
Immediate	•Includes teacher gathering feedback from	 Lesson observations/
	teaching, including mini-whiteboards,	learning walks
	book, work etc.	 Some evidence of
	•Takes place in lessons with individuals or	annotations or use of
	small groups	marking code/highlighting
	 Often given verbally to pupils for 	
	immediate action	
	•May involve use of a teaching assistant to	
	provide support or further challenge	
	 May re-direct the focus of teaching or the 	
	task	
	 May include highlighting/annotations 	

	according to the marking code	
Summary	 Takes place at the end of a lesson or activity Often involves whole groups or classes Provides an opportunity for evaluation of learning in the lesson May take form of self-assessment or peer-assessment against an agreed set of criteria In some cases, may guide a teacher's further use of review feedback, focusing on the area of need 	Lesson observations/ learning walks Timetabled pre-and-post teaching based on assessment Some evidence of self-and-peer assessment May be reflected in selected focus review feedback (marking)
Review	•Takes place away from the point of teaching •May involve written comments/ annotations for pupils to read/respond to •Provides teachers with opportunities for assessment of understanding •Leads to adaptation of future lessons through planning, grouping or adaptation of tasks •May lead to next steps being set for pupils' future attention, or immediate action	Acknowledgement of work completed Written comments and appropriate responses/action Adaptations to teaching sequences tasks when compared to planning

Marking Approaches

All work will be acknowledged in some form by the class teachers. This may be through simple symbols such as ticks or highlighting learning objectives.

In Foundation Stage and Key Stage 1, review marking will only be used for pupils who are able to read and respond independently. In some cases, the marking code may be used where this is understood by pupils (see end of policy for marking code and symbols). Where pupils are unable to read/understand such comments, these are shared verbally with the children at the next appropriate opportunity.

In Key Stage 2, written marking and comments should be used where meaningful guidance can be offered which it has not be possible to provide during the classroom session. In the case of groups of pupils having a common need, it may be appropriate for teachers to adjust their planning or grouping rather than providing a written comment. Where a child has achieved the intended outcome and is well-prepared for the next stage in learning, this need not be annotated.

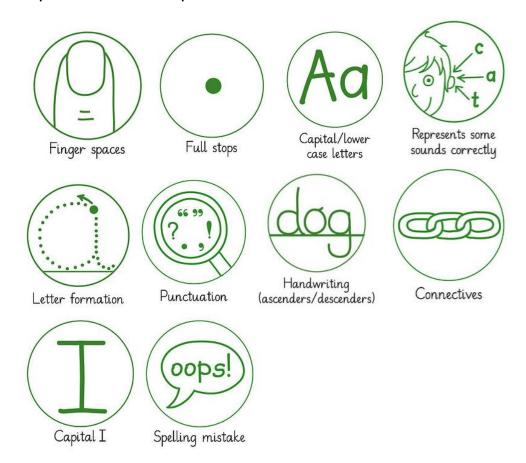

In most cases, written comments will be focussed on extended pieces of written or extended tasks. These will allow children's achievements to be recognised and provide further guidance for future learning.

Marking Code

Annotation	Meaning
	Work which demonstrates that a pupil has met an
	element of success criteria, demonstrated a particular
	skill or achieved an intended outcome
	Work which needs further attention or displays an error
	or misconception (e.g. letter needing a capitalisation;
	poor word choice; specific error in calculation, etc.)
	Incorrect spelling. This will be used selectively when
	marking work, focussing on spelling patterns which
	should either have been secured by a pupil, or represent
	a pupil's next step in spelling development.
	In KS1, this will be accompanied by the correct spelling
	In KS2, pupils will be expected to correct their spelling
	following guidance from their teacher.
//	New paragraph needed here
^	Missing word

Further symbols/codes may be used in a manner which relates directly to success criteria used in the planning of written work e.g. TV to indicate technical vocabulary.

Improvement Stamps

Marking will be in blue pen. Children will make corrections in green.
